

Tiger Cub Badge Links

Tiger Cub Leaders: Please use this guide to help your cub scouts fulfill requirements toward earning badges. All of the requirements listed below can be done at the Saint Louis Science Center at your leisure. We have listed the name of the badge first, followed by the name of the particular requirement(s) that can be completed and the location within the Science Center, if applicable. It is our hope that you and your scouts have fun exploring the Science Center and earning badges.

HOW I TELL IT

[Go See It! - Saint Louis Science Center](#)

Here at the Saint Louis Science Center there is always something going on. We have lots of galleries, special exhibits and movies that you can see and explore! Using a map or website of the Science Center, find a gallery or exhibit you would like to visit. It is important to communicate to people what types of activities we have by advertising through signs and pamphlets. When you are spending the day at the Science Center, look around and see what kinds of signs and pamphlets you can find that communicate to our visitors that something fun is happening!

LEARN ABOUT ANIMALS

[Learn about an animal - Ecology and Environment Past](#)

Use the displays on the lower level to find a prehistoric animal that you like – Some of them are still alive today! With the help of your adult partner, read the information on the text panels to find out some facts about your animal: How big is it? What kind of food does it eat? How long does it live? What sounds does it make? Is it endangered?

READING FUN

[Read a Story - Saint Louis Science Center Book Nooks](#)

In several places throughout the Science Center, you can find a book nook. The subjects of the books vary depending on the location. For example, you can read books about dinosaurs on the lower level, near the Dino Diorama. With your adult partner, find a story you might like and read it together.

SEE A PERFORMANCE

[See a Play - Center Stage](#)

At Center Stage, you can catch a demonstration given by live presenters on a variety of science topics. Try to choose one that acts out a story.

WHERE I LIVE

[Look At A Map - Saint Louis Science Center](#)

With the help of an adult, look at a map of Saint Louis. Can you find the Saint Louis Science Center? Come to the Science Center and after spending a day here, make a map of your favorite gallery! Write a paragraph telling why you liked that gallery and what you learned during your day!
