

# Field Trip Package

## Electrify & Energize

### For 3rd grade and up.

**AVAILABILITY:** TUESDAYS AND WEDNESDAYS ONLY!  
September 10–December 18, 2019.

**TIMES:** 10am–1pm

**COST:** \$11 per person

**PLEASE NOTE:** This program requires a minimum of 15 paid participants and can serve a maximum of 35 participants. One free adult chaperone is required for every ten students. Additional adults will be charged the program fee and the parking fee. No other discounts, including SLSC membership discounts, apply to field trip package prices. Please arrive at least 15 minutes prior to your program start time as programs begin promptly at 10am. Doors open at 9:30am. Field trip schedule subject to change in order to better coordinate program components.

### Here's your agenda for the day:

#### Explore Our Experience Energy Gallery **10am–11am**

The Experience Energy gallery presents alternate methods of electrical generation and ideas to conserve energy. It features exhibits that show how wind, coal and solar power are converted to electricity and interactive stations that explain the energy efficiency of new and old appliances. Learn the pros and cons of electric vehicles, biofuels and combustion engines. Get hands-on with energy in this highly-interactive gallery.

#### Watch National Geographic's *Electropolis* in the 3D Theater **11am–11:30am**

From the spellbinding drama of a widespread grid catastrophe to the brilliant technologies forging a more reliable and efficient future, *Electropolis* is the incredible story of our quest to reimagine and reinvent our entire energy ecosystem. Due to the intensity of the film, *Electropolis*, this program is best suited for children 3rd grade and above. Please note that this film is shown in our T-Rex room and NOT in the OMNIMAX® Theater.

#### Enjoy Our Energy Stage Performance, *Hidden Potential* **11:45am–12:15pm**

This interactive science presentation illustrates the many surprising places that energy exists in our world, hidden before our very eyes! Participants will discover how energy can be derived from water, witness how energy in food is used and other energy-releasing reactions.

#### Lunch **12:15pm–1pm**

Lunch may be purchased starting at \$6 per student and \$10.50 for adults, or you can **bring your own**.

Bus parking is free – cars are \$10 per vehicle, free parking for required chaperones.

Please see bus parking map for further instructions.

NOTE: Reservations are required at least 2 weeks in advance and we must receive payment 10 days prior to your scheduled field trip. Last minute additions to student or chaperone tickets must be made the day before arrival.

### For more information on this unique experience, please visit [slsc.org/field-trip-packages](http://slsc.org/field-trip-packages).

Cancellation policy: Payment is required 10 days prior to your scheduled field trip. Cancellation after that time period will result in forfeiture of the full activity amount. SLSC may cancel the program with at least one-week prior notice, in which case SLSC will promptly refund the amount previously paid and your organization will be relieved of any payment obligation. SLSC shall however, in no event, be responsible for any loss incurred by your organization other than the program payments received.

To make a reservation please call 314.289.4439 or email us at [education@slsc.org](mailto:education@slsc.org).
