Independent Auditors' Report

Board of Commissioners
St. Louis Science Center Subdistrict of the Metropolitan
Zoological Park and Museum District
St. Louis, Missouri

Report On The Financial Statements

We have audited the accompanying financial statements of the business-type activities and the aggregate remaining fund information of the St. Louis Science Center Subdistrict of the Metropolitan Zoological Park and Museum District (St. Louis Science Center), as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the St. Louis Science Center's basic financial statements as listed in the table of contents.

Management's Responsibility For The Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of St. Louis Science Center as of December 31, 2019 and 2018, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 11 and the schedule of changes in net pension liability and related ratios, the schedule of employer contributions, and the schedule of return on investments on pages 47 through 49 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the St. Louis Science Center's basic financial statements. The accompanying supplementary information, as listed on the accompanying table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

Board of Commissioners
St. Louis Science Center Subdistrict of the Metropolitan
Zoological Park and Museum District

The accompanying information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Management's Discussion And Analysis

**ST. LOUIS SCIENCE CENTER
SUBDISTRICT OF THE METROPOLITAN
ZOOLOGICAL PARK AND MUSEUM DISTRICT**

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the St. Louis Science Center's (the Science Center) financial performance provides an overview of the Science Center's financial activities for the years ended December 31, 2019 and 2018. The discussion and analysis should be read in conjunction with the Science Center's financial statements that begin on page 12.

2019 Financial Highlights

The net position of the Science Center totaled \$53,619,021 at the close of 2019; this was a decrease of \$1,260,447 or -2% from 2018.

Unrestricted net position increased \$824,030 or 10.5%, primarily the result of an increase in revenues from special exhibits and investments and as more fully described following Table 1 - Net Position.

Total 2019 revenues increased \$2,538,859 (12.6%) from 2018, primarily as a result of higher special exhibits revenue and investment income. These increases were offset by a decrease in Omnimax theater revenue of approximately \$224,000 and gift shops revenue of approximately \$104,000.

Total expenses for 2019 increased \$2,926,050 or 13.9% from 2018, comprised mostly of increases in special exhibits related costs and membership benefits and fundraising. The largest increase in program services was \$1,550,124 in special exhibits, and membership benefits and fundraising increased by \$467,149.

Total liabilities increased \$2,107,917 or 12.3% from 2018, which was principally accounted for by an increase of borrowing under line of credit agreements of \$3,153,008. The increases were offset by a decrease in our net pension liability of \$857,885 or 41.59%.

Capital asset additions totaled approximately \$5,255,000 for the year, representing mostly the renovated Omnimax theater, planning for the new main entrance and the Planetarium roof.

2018 Financial Highlights

The net position of the Science Center totaled \$54,879,468 at the close of 2018; this was a decrease of \$873,256 or -1.6% from 2017.

Unrestricted net position increased \$461,379 or 6.2%, primarily the result of an increase in revenues from simulators and gift shops and as more fully described following Table 1 - Net Position.

Total 2018 revenues decreased \$2,484,044 (-10.9%) from 2017, primarily as a result of lower special exhibits revenue, sponsorships, the biennial Gala (not held in 2018) and investment income. These decreases were offset by an increase in simulator revenue of approximately \$164,000 and gift shops revenue of approximately \$63,000.

ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT

Management's Discussion And Analysis (*Continued*)

Total expenses for 2018 decreased \$757,908 or 3.5% from 2017, comprised mostly of decreases in program services and depreciation. The largest decrease in program services was \$414,923 in special exhibits and depreciation decreased by \$118,310.

Total liabilities decreased \$144,602 or 0.8% from 2017, which was principally accounted for by a decrease in note payables of \$867,306 (7.1%) and a decrease in accounts payable and accrued expenses of \$472,106 or 18.5%. The decreases were offset by an increase in our net pension liability of \$1,290,505 or 167%.

Capital asset additions totaled approximately \$2,112,000 for the year, representing mostly the new exhibits Destination Moon and GameXP as well as our new parking system.

Using This Annual Report

This annual report includes financial statements, notes to those statements, and supplementary information. These statements are prepared and organized so the reader can understand the Science Center as a single entity.

The Science Center, because it is a special-purpose government engaged in a single program, presents only combined business-type activity financial statements as its basic financial statements. The Science Center reports its financial results as a single enterprise fund for financial reporting purposes. This means that it uses the full accrual method of accounting and considers its operations to be similar to those of a business-type activity. The Science Center's defined benefit retirement plan is included as a pension trust fund.

Government-Wide Financial Statements

The Statement of Net Position and Statement of Revenues, Expenses and Changes in Net Position provide information about the activities of the entire Science Center. These two statements report the Science Center's total net position and the changes in net position. The change in net position is important because it is an important indicator in determining whether the overall financial position of the Science Center has improved or deteriorated during the year. However, other factors, such as changes in attendance and improvements in capital assets, also effect the overall financial position of the Science Center.

Combining Financial Statements

The combining financial statements beginning on page 50 separately report the activities of the St. Louis Science Center Subdistrict and the St. Louis Science Center Foundation. These two entities are discussed further in Note 2 beginning on page 19 of the financial statements. Both of these entities carry out various activities conducted by the Science Center and, as discussed in Note 2, the Foundation is treated as a blended enterprise fund for financial reporting purposes.

The notes to the financial statements provide additional information that is essential to a full understanding of the data included in the basic financial statements.

METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Management's Discussion And Analysis (*Continued*)

St. Louis Science Center as a Whole

Table 1 provides a summary of the Science Center's net position for 2019, 2018 and 2017.

Table 1 - Net Position

	2019	2018	2017
Assets			
Current assets and other assets	\$ 20,173,626	\$ 19,531,139	\$ 19,821,980
Capital assets	52,823,136	51,427,311	53,093,392
<i>Total assets</i>	<u>72,996,762</u>	<u>70,958,450</u>	<u>72,915,372</u>
<i>Deferred outflows</i>	<u>171,431</u>	1,142,059	454,377
Liabilities			
Current liabilities	5,745,882	4,586,396	5,180,011
Noncurrent liabilities	13,493,761	12,545,330	12,096,317
<i>Total liabilities</i>	<u>19,239,643</u>	<u>17,131,726</u>	<u>17,276,328</u>
<i>Deferred inflows</i>	<u>309,529</u>	89,315	340,697
Net position			
Net investment in capital assets	39,883,385	40,327,608	41,152,759
Restricted	5,027,636	6,667,890	7,177,374
Unrestricted	8,708,000	7,883,970	7,422,591
<i>Total net position</i>	<u>\$ 53,619,021</u>	<u>\$ 54,879,468</u>	<u>\$ 55,752,724</u>

2019 And 2018

Net position invested in capital assets decreased by \$444,223 due to net capital asset additions of \$5,122,221 and an increase in debt of approximately \$1,814,008. This was offset by depreciation of \$3,726,396.

The restricted net position, which represents resources that are subject to external restrictions on how those assets may be used, decreased in 2019 due to pledges receivable which are restricted for the capital campaign.

The unrestricted net position increased because of higher revenues for special exhibits and investments, which were offset by a decrease in revenues from the Omnimax theater and gift shops.

Current liabilities increased by approximately \$1,159,486 from 2018, comprised mainly of an increase in borrowings under the line-of-credit for the Omnimax theater renovation.

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Management's Discussion And Analysis (*Continued*)

2018 And 2017

Net position invested in capital assets decreased by \$825,151 due to capital asset additions of \$2,111,936 and a decrease in debt of approximately \$867,000. This was offset by depreciation of \$3,778,017.

The restricted net position, which represents resources that are subject to external restrictions on how those assets may be used, decreased in 2018 due to pledges receivable which are restricted for the capital campaign and the decrease in endowment earnings due to a weak market. The Science Center did receive a pledge of \$2,000,000 in 2018 but because of the conditional wording used by the donor, only \$400,000 was able to be recognized in 2018.

The unrestricted net position increased as a result of higher revenues for simulators and gift shops which were offset by a decrease in revenues from special exhibits and the biennial Gala (not held in 2018).

Current liabilities decreased by approximately \$594,000 from 2017, comprised mainly of a decrease in accounts payable and accrued expenses of \$472,106.

Table 2 - Change In Net Position

	2019	2018	2017

ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT

Management's Discussion And Analysis (*Continued*)

2019 And 2018

Contributions result principally from the Science Center's ongoing fundraising efforts (annual fund, major gifts, in-kind, operating grants, etc.) and special fundraising efforts. These revenues increased \$281,756 from 2018 to 2019 principally because of the biennial Gala (not held in 2018) and an increase in major gifts. Operating grant revenues include \$251,277 and \$349,757 received under several different Federal and Non-Federal grants during 2019 and 2018, respectively. Property taxes and license fees are received rather than general admission fees and represented approximately 53% of total revenues in 2019 and 56% of total revenues in 2018. Theater and other revenues include revenue from the Science Center's operations for which fees are charged (Omnimax Theater, planetarium, special exhibits, parking, restaurants, etc.). These revenues increased approximately \$2,040,211 from 2018, reflecting higher special exhibit and membership revenue.

Investment income for 2019 increased from 2018 by approximately \$836,000. Investment income includes unrealized gains and losses in the Science Center's endowment funds.

Salaries and benefits are the Science Center's largest expense totaling \$10,718,486 and \$10,176,571 respectively, or 45% and 48% of total expenses in 2019 and 2018, respectively.

Depreciation of the Science Center's capital assets totaled \$3,726,396 and \$3,778,017 or 16% and 18%, of total expenses in 2019 and 2018, respectively. Depreciation decreased because a large percentage of our capital asset additions were placed in service in the fourth quarter or remained in construction in progress at year-end.

Other program services include expenses incurred specifically to carry out the various programs and activities of the Science Center. Total program services expenses increased by \$1,695,137 or 78% in 2019. Major expenses include film and exhibit costs and supplies for the various education and scientific programs and events held at the Science Center. Our largest increase during 2019 was in special exhibits.

Other supporting services include expenses incurred to support the overall operations of the Science Center. Total supporting services expense increased by \$580,882 or 13% in 2019. Major expenses include marketing and communications, utilities, supplies, printing, insurance and maintenance. Our largest expense increase during 2019 was in membership benefits and fundraising.

ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT

Management's Discussion And Analysis (*Continued*)

2018 And 2017

Contributions result principally from the Science Center's ongoing fundraising efforts (annual fund, major gifts, in-kind, operating grants, etc.) and special fundraising efforts. These revenues decreased \$866,559 from 2017 to 2018 principally because of the biennial Gala (not held in 2018) and a decrease in major gifts. Operating grant revenues include \$349,757 and \$505,724 received under several different Federal and Non-Federal grants during 2018 and 2017, respectively. Property taxes and license fees are received rather than general admission fees and represented approximately 56% of total revenues in 2018 and 50% of total revenues in 2017. Theater and other revenues include revenue from the Science Center's operations for which fees are charged (Omnimax Theater, planetarium, special exhibits, parking, restaurants, etc.). These revenues decreased approximately \$1,023,000 from 2017, reflecting lower special exhibit and sponsorship revenue.

Investment income for 2018 (net loss in 2018) decreased from 2017 by approximately \$637,000. Investment income includes unrealized gains and losses in the Science Center's endowment funds.

Salaries and benefits are the Science Center's largest expense totaling \$10,176,571 and \$10,018,202, respectively, or 48% and 46% of total expenses in 2018 and 2017, respectively.

Depreciation of the Science Center's capital assets totaled \$3,778,017 and \$3,896,327 or 18% and 18%, of total expenses in 2018 and 2017, respectively. Depreciation decreased as a result of some exhibits being fully depreciated mid-year in 2018.

Other program services include expenses incurred specifically to carry out the various programs and activities of the Science Center. Total program services expenses decreased by \$645,193 or 23% in 2018. Major expenses include film and exhibit costs and supplies for the various education and scientific programs and events held at the Science Center. Our largest cost savings during 2018 was in special exhibits.

Other supporting services include expenses incurred to support the overall operations of the Science Center. Total supporting services expense decreased by \$128,520 or 3% in 2018. Major expenses include marketing and communications, utilities, supplies, printing, insurance and maintenance. Our largest expense reduction during 2018 was in membership benefits and fundraising.

Budget

As noted, the Science Center is treated as a single enterprise fund for financial reporting purposes and, accordingly, no budgetary analysis is presented here. (The Science Center submits a budget to the St. Louis Metropolitan Zoological Park and Museum District to assist the District with establishing the amount of property taxes to be collected by the District on behalf of the Science Center).

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Management's Discussion And Analysis (*Continued*)

Table 3 - Capital Assets

	2019	2018	2017
Land and land improvements	\$ 15,382,262	\$ 15,370,247	\$ 15,354,343
Building and building improvements	68,527,775	67,763,606	67,522,254
Equipment, exhibits and collections	48,052,676	46,758,828	45,304,432
Construction in progress	1,572,460	524,306	124,022
	133,535,173	130,416,987	128,305,051
Less accumulated depreciation	(80,712,037)	(78,989,676)	(75,211,659)
Net capital assets	\$ 52,823,136	\$ 51,427,311	\$ 53,093,392

At December 31, 2019 the Science Center's net investment in capital assets totaled \$39,883,385 (net of outstanding notes payable of \$13,098,008 used to finance the construction of certain capital assets and the related deferred amount on bond refunding of \$158,257). There were capital asset additions of \$5,254,966 during the year. These additions included the Omnimax theater renovation, planning for the new front entrance and the Planetarium roof replacement, as well as ongoing replacements and normal additions of equipment and other exhibits.

Additional information on the Science Center's capital assets can be found in Note 6 on page 33 of this annual report.

Debt

The Science Center has bonds payable outstanding totaling \$10,445,000. These bonds were issued in tax-exempt financings in 2014. The Series 2014A Bonds were issued for a total amount of \$9,440,000 in connection with the refunding of the Science Center's 2005 bonds.

The Series 2014A bond proceeds were used to provide for all future debt service payments on the Series 2005 Bonds and to pay for related bond issuance costs. As a result, the Series 2005 bonds are considered defeased in substance and the notes payable to the IDA for those bonds have been removed from the accompanying financial statements.

The Series 2014A Bonds bear interest at 2.37% and will be repaid at approximately level annual debt service until final maturity in November, 2025. The Series 2014A Bonds outstanding as of December 31, 2019 total \$5,445,000. The total amount drawn on the Series 2014B Bonds as of December 31, 2019 is \$5,000,000.

ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT

Management's Discussion And Analysis (*Continued*)

In 2013, the Science Center financed the purchase of a new VOIP phone system through US Bank. The amount of the note at December 31, 2019 is \$0. The note bears interest at LIBOR plus 2% and matured in 2019.

The Science Center has a short-term note payable totaling \$1,900,000 outstanding at December 31, 2019. This borrowing was used primarily to finance the acquisition and construction of various fixed assets and the remainder was used for working capital purposes.

The Science Center also has a new revolving line-of-credit to borrow up to \$10,000,000 for certain capital projects. The agreement extends through December 1, 2021. The outstanding balance at December 31, 2019 was \$2,653,008. There was no outstanding balance at December 31, 2018.

Additional information on the Science Center's notes payable can be found in Note 7 and Note 8 on pages 34 through 37 of this annual report.

Contacting The Science Center's Financial Management

This financial report is designed to provide a general overview of the Science Center's finances and to help demonstrate the Science Center's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Managing Director of Finance, St. Louis Science Center, 5050 Oakland Avenue, St. Louis, Missouri 63110.

NOTES TO FINANCIAL STATEMENTS

December 31, 2019 And 2018

1. Description Of Organization

History

The Academy of Science of St. Louis was founded in 1856 as the first scientific organization west of the Mississippi River. The Academy founded the Museum of Science and Natural History in 1959.

In 1971, a public vote made the Museum of Science and Natural History a subdistrict of the Metropolitan Zoological Park and Museum District (the District). This created funding for the museum from a continuous appropriation of an allocation of property tax revenues generated in the City of St. Louis and St. Louis County, which are levied on behalf of the St. Louis Science Center Subdistrict of the District (the St. Louis Science Center or the Subdistrict), by the District. The St. Louis Science Center has no authority to levy taxes on its own.

In 1984, the museum acquired the McDonnell Planetarium from the City of St. Louis. After a \$3.2 million renovation, the building reopened July 20, 1985 as the St. Louis Science Center.

Following a \$34 million expansion to construct the current main building, the expanded St. Louis Science Center opened November 2, 1991.

The St. Louis Science Center's mission is to ignite and sustain lifelong science and technology learning.

2. Summary Of Significant Accounting Policies

The significant accounting policies followed by the St. Louis Science Center are described below.

Reporting Entity

The St. Louis Science Center defines its reporting entity to include all component units for which the St. Louis Science Center's governing body is financially accountable. A primary government is financially accountable if it appoints a voting majority of a potential component unit's governing body and is able to impose its will on that potential component unit or the relationship has the potential for creating specific financial benefits to, or imposing specific financial burdens on, the primary government. The St. Louis Science Center's financial reporting entity consists of the Subdistrict and its two component units: the St. Louis Science Center Foundation and the St. Louis Science Center Employees' Retirement Plan.

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

The St. Louis Science Center Foundation (the Foundation) was incorporated in 1988 as a not-for-profit organization whose purpose is to support the Subdistrict and promote the study of science through educational programs and fundraising activities. The Foundation is exempt from federal income tax under Internal Revenue Code Section 501(c)(3). Separate audited financial statements are not prepared for the Foundation. The Foundation is included in the St. Louis Science Center's financial reporting entity because it is governed by members of the Subdistrict's Board and its activities are for the sole benefit of the Subdistrict. As such, the balances and transactions of this component unit are blended into the basic financial statements and combined with the business-type activities of the Subdistrict.

The condensed combining financial information for the Subdistrict and Foundation as of December 31, 2019 is as follows:

Condensed Combining Statement Of Net Position

ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT

Notes To Financial Statements (*Continued*)

The St. Louis Science Center Employees' Retirement Plan (the Plan) is a single employer, defined benefit pension plan, as discussed further in Note 10. The Plan is a legally separate trust. The Plan is included in the St. Louis Science Center's financial reporting entity because it is governed by members of the Subdistrict's Board in the absence of the Plan having its own board, and the St. Louis Science Center has a financial burden related to the Plan because it is legally obligated to make contributions to the plan in order to provide future benefits to St. Louis Science Center employees.

In accordance with GASB Statement No. 84, *Fiduciary Activities*, the balances and transactions of this component unit are presented in a separate fiduciary fund (the Pension Trust Fund).

Basis Of Presentation

The financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB).

Measurement Focus And Basis Of Accounting

The basis of accounting refers to when revenues, expenses, and related assets and liabilities are recognized in the accounts and reported in the financial statements. Specifically, it relates to the timing of the measurements made, regardless of the measurement focus applied. For financial reporting purposes, operations of the business-type activities are reported as a single enterprise fund and accordingly, all interfund transactions and balances are eliminated. Under the accrual basis of accounting, revenues are recognized when earned, and expenses are recognized when the related liability is incurred. The measurement focus is on the flow of economic resources. All assets and liabilities associated with the operation of the St. Louis Science Center are included on the statement of net position.

Revenues and expenses of business-type activities are divided into operating and non-operating items. Operating revenues generally result from providing services and producing and delivering goods in connection with principal ongoing operations. Revenues from admissions, merchandise and other sales, parking, and member contributions are reported as operating revenues. Operating expenses include primarily the costs of providing program services, administrative expenses, and depreciation on capital assets. All revenues and expenses which are capital-, financing-, or investing-related are reported as nonoperating revenues and expenses or in their own category in the Statement of Revenues, Expenses and Changes in Net position.

Although support from the District through property taxes, as described below, is in lieu of admission charges in accordance with state statute, these revenues are not generated from operations and are, therefore, reported as nonoperating revenues.

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

The financial statements of the Pension Trust Fund have been prepared using the accrual basis of accounting. Benefits and refunds are recognized when due and payable. Investments are reported at fair value.

Support From The District Through Property Tax Revenue

Tax revenue from the District represents a continuous appropriation to the St. Louis Science Center from the District. The St. Louis Science Center recognizes such tax revenues and the related receivable based on an allocation of property taxes which are levied by the District. The St. Louis Science Center recognizes the support in the period in which the taxes have been levied by the District, net of the District management fee and an allowance for uncollectible accounts.

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied annually on November 1 and payable by December 31. All unpaid taxes become delinquent on January 1 of the following year. Taxes are collected by the City and County and remitted to the District on a monthly basis. Amounts collected by the District are then transferred to the Subdistrict as expenses become payable.

Because some taxes ultimately may not be collected, an allowance for uncollectible taxes is recorded. Increases in the allowance are recorded by a provision for uncollectible taxes charged to expense. Estimating the amount of uncollectible taxes is necessarily subjective. Accordingly, the allowance is maintained by the Subdistrict at a level considered adequate to cover uncollectible taxes currently anticipated, based on past experience and other general, economic, and political factors.

Revenue Recognition

The St. Louis Science Center recognizes marketing and communication, education, exhibits, and program revenues at the point of sale or when the program is provided. Parking and members' contributions are recognized as revenue when received.

The St. Louis Science Center recognizes operating and capital grants and contributions, including unconditional promises to give due in future periods, when all eligibility requirements, including time requirements, are met.

Cash And Investments

Cash and short-term investments include bank checking accounts, certificates of deposit, and U.S. treasury and agency obligations. Restricted cash and investments, held primarily by the Foundation, consist of investments in U.S. treasury and agency obligations held in trust, with maturities less than one year; money market mutual funds; and equity and fixed income mutual funds.

Investment income includes interest and dividends earned and the change in the fair value of investments.

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

Capital Assets

Capital assets are recorded at historical cost plus interest on funds borrowed to finance the acquisition or construction of major capital additions. Donated items are stated at acquisition value at the date of donation. Depreciation is calculated using the straight-line method over the estimated useful lives of the related assets as follows:

Buildings	20 to 60 years
Furniture, fixtures and equipment	5 to 20 years
Exhibits	3 to 20 years

Capital amounts are defined as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year.

Expenses for maintenance, repairs, and minor renewals are charged to operations as incurred. Expenses for betterments and major renewals are capitalized. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the respective accounts, and the resulting gain or loss, if any, is included in operations.

Deferred Outflows Of Resources

In addition to assets, the statement of net position will sometimes include a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period or periods and will not be recognized as an outflow of resources until then. The St. Louis Science Center has a deferred loss on refunding reported in the statement of net position. A deferred loss on refunding is the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. This item has been reported as deferred outflows on the statement of net position. The pension-related items relate to certain actuarial differences and changes that are amortized over future periods.

Deferred Inflows Of Resources

In addition to liabilities, the statement of net position will sometimes include a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period or periods and will not be recognized as an inflow of resources until then. The pension-related items relate to certain actuarial differences and changes that are amortized over future periods.

ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT

Notes To Financial Statements (*Continued*)

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the St. Louis Science Center Employees' Retirement Plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position

Net Position is classified as follows:

Net Investment in Capital Assets - the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction, or improvement of those assets.

Restricted Expendable - the component of net position that reports the difference between assets and liabilities of certain programs whose use is subject to externally imposed stipulations that can be fulfilled by actions of the St. Louis Science Center.

Restricted Nonexpendable - the component of net position that also reports the difference between assets and liabilities of certain programs subject to externally imposed stipulations that the assets be maintained permanently.

Unrestricted - the difference between the assets and liabilities that do not meet the definition of restricted or net investment in capital assets.

When both restricted and unrestricted resources are available for use, it is the St. Louis Science Center's policy to use applicable restricted resources first, then unrestricted resources as they are needed.

Use Of Estimates

The preparation of the St. Louis Science Center's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

3. Cash And Investments

Cash and investments consist of the following at December 31:

	2019	2018
Business-Type Activity		
Cash and short-term investments:		
Cash	\$ 6,942,254	\$ 3,501,923
Noncurrent cash and investments:		
Equity-based mutual funds - international	644,330	420,625
Equity-based mutual funds - domestic	2,003,475	1,524,417
Fixed income mutual funds	745,326	516,901
Money market mutual funds	123,959	351,016
Infrastructure funds	12,540	53,456
REIT funds	30,151	62,175
	\$ 10,502,035	\$ 6,430,513
Pension Trust Fund		
Money market mutual funds	\$ 455,705	\$ 724,497
Equity-based index and open-end mutual funds	5,231,773	3,894,799
Fixed income mutual funds	1,131,383	2,294,671
Fixed income corporate bonds	1,050,509	—
Infrastructure funds	58,451	59,818
REIT funds	50,098	40,252
	\$ 7,977,919	\$ 7,014,037

Investment Policy

Investments - Subdistrict

The St. Louis Science Center's investment policies require the Subdistrict to invest in instruments that are defined as being approved by the statutes of the State of Missouri and collateralized by approved instruments. The policy has safety as its primary objective. Investments are made to ensure the availability of funds on a timely and adequate basis for payment of general expenditures and capital outlay projects, both short-term and long-term, in an expeditious manner. Approved investments include U.S. Treasury bills, notes, and bonds; U.S. Government Agency and Instrumentality obligations; repurchase agreements; collateralized deposits; and bonds or other obligations issued by the State of Missouri and subdivisions thereof as long as any of these are rated "A" or better by Moody's or Standard and Poor's. Purchases of one issuer are limited to \$500,000 except for federal government securities which have no limitations. Maturities for operational purposes are restricted to 90 days or less.

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

Investments - Foundation

The Foundation is incorporated as a Missouri not-for profit organization and as such, is not subject to the restrictions on investments of governmental subdivisions. Specifically, not-for-profit corporations are not restricted under Missouri law from investing in corporate stock and similar investments.

Investments - Foundation Endowment Investments

The long-term objective of the endowment held by the Foundation is to achieve a total return equivalent to or greater than the St. Louis Science Center's financial requirements set by the Investment Committee of the Board of Commissioners. The financial requirement is the sum of the spending rate, the expected long-term inflation rate, and any appropriate growth rate, reduced by the cost of portfolio management. The Investment Committee has adopted an asset allocation policy target of investing 68% of the endowment in equity mutual funds, 17% of the endowment in fixed income mutual funds, and 15% of the endowment in alternatives. The spending policy is set at 5% of the average of the trailing three-year ending balance. This policy may be modified from time to time by the Investment Committee.

Investments - Pension Trust Fund

The St. Louis Science Center Employees' Pension Plan's (the Pension Plan) investment policies require the Pension Plan to invest in instruments that emphasize diversification across asset classes and are designed to give balance to the overall structure of the Pension Plan's investment program over the time horizon. The policy's primary objective is to provide a rate of return sufficient to meet in perpetuity the obligations of the Pension Plan. This policy may be modified from time to time by the Investment Committee of the Subdistrict.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As noted under the investment policies, the St. Louis Science Center minimizes the risk that the value of its investments will fall due to changes in general interest rates by investing unrestricted funds primarily in short-term U.S. government obligations and overnight repurchase agreements. At December 31, 2019 and 2018, the St. Louis Science Center held the following investments and maturities:

Investment Type	Fair Value	December 31, 2019		
		Investment Maturities (In Years)		
		Less Than One	1 - 5	6 - 10
Fixed income mutual funds*	\$ 745,326	\$ —	\$ 59,526	\$ 685,800
Money market mutual funds*	123,959	123,959	—	—

	\$ 3,019,168	\$ 1,084,756	\$ —	\$ 1,934,412

* Average duration of securities within the funds

Credit Risk

In accordance with the Science Center's investment policies, investments are only permitted in the investments noted above. As a result, the risk of loss on investments, excluding the endowment, is controlled by having safety as the primary objective of the St. Louis Science Center. The risk of loss on investments in the endowment is controlled by having the Investment Committee oversee the investments and by engaging an outside investment manager to invest the funds of the endowment in accordance with the guidelines and restrictions dictated by the endowment investment policy.

The Pension Plan's investment policy does not address credit risk.

Concentration Of Credit Risk

As noted under the investment policies, there is a limit on the amount of funds the St. Louis Science Center and the Pension Plan may invest in any one issuer, except with respect to federal government securities. For the Pension Plan, the policy dictates that an asset allocation plan be developed and rebalanced on a periodic basis. At December 31, 2019 and 2018, the concentrations of the St. Louis Science Center's investments were below 5%.

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

Custodial Credit Risk

For investments, custodial credit risk is the risk that in the event of the failure of the counterparty to a transaction, the St. Louis Science Center will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. Investments in securities are exposed to custodial credit risk if the securities are uninsured, not registered in the St. Louis Science Center's name and held by the counterparty. The St. Louis Science Center did not have any investments exposed to custodial credit risk at December 31, 2019 or 2018.

For deposits, custodial credit risk is the risk that in the event of bank failure, the St. Louis Science Center's deposits may not be returned to it. Protection of the St. Louis Science Center Subdistrict deposits is provided by the Federal Deposit Insurance Corporation (FDIC) and by eligible securities pledged by the financial institution. The Foundation does not have a formal policy related to custodial credit risk of deposits. At December 31, 2019 the Foundation's deposits in excess of the FDIC limits were \$4,929,506.

The Pension Plan's investment policy does not address custodial credit risk.

4. Fair Value Measurement And Application

The St. Louis Science Center categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles pursuant to GASB Statement No. 72. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE

5. Pledges Receivable

Outstanding pledges at December 31, 2019 and 2018 are receivable from individuals, corporations, and other organizations principally located in the St. Louis metropolitan area. Pledges that are expected to be collected within one year are recorded at net realizable value. Pledges that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. The discounts on those amounts are computed using risk-free interest rates applicable to the years in which the pledges are received. In 2010, the St. Louis Science Center began its Bridge to the Future Campaign and received approximately \$1,000,000 in pledges during 2018. Amortization of the discounts is included in contribution revenue.

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

Pledges are scheduled to be collected as follows:

Year	Amount
2020	\$ 1,173,578
2021	452,270
2022	400,000
	<u>2,025,848</u>
Less: Noncurrent unamortized discount	74,569
	<u>1,951,279</u>
Less: Allowance for uncollectible pledges	10,000
	<u><u>\$ 1,941,279</u></u>

As of December 31, 2019, the St. Louis Science Center has conditional donor commitments totaling approximately \$1,210,000 that have not been recognized. Contribution revenue will be recognized when all donor-imposed eligibility requirements are met.

6. Capital Assets

Capital asset activity for the year ended December 31, 2019 is as follows:

	Balance - January 1, 2019	Additions	Deletions & Transfers	Balance - December 31, 2019

METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

Public Facilities Refunding And Improvement Revenue Bonds Series 2014

On December 4, 2014, in connection with financing a portion of improvements to the St. Louis Science Center and to advance refund the Series 2005 Bonds, the Industrial Development Authority of the City of St. Louis (the IDA) issued \$9,440,000 in Public Facilities Refunding Revenue Bonds, Series 2014A (Series A), and \$5,000,000 in Public Facilities Improvement Revenue Bonds, Series 2014B (Series B), and entered into a promissory note with the Foundation. The Series A Bonds bear interest at 2.37% and will be repaid at approximately level annual debt service until final maturity in November 2025. The Series A Bonds proceeds were used to purchase securities that were placed in an irrevocable trust with an escrow agent to provide for the Series 2005 Bonds to be called and refunded on February 15, 2015. As a result, the Series 2005 Bonds are considered defeased in substance and the notes payable to the IDA for those bonds were removed from the accompanying financial statements.

The maturity dates, principal amounts, and interest expense amounts for the Series A Bonds are as follows:

Maturity	Principal Amount	Interest
2020	\$ 855,000	\$ 121,581
2021	875,000	101,051
2022	895,000	80,225
2023	915,000	58,835
2024	940,000	36,794
2025	965,000	14,250
	<u>\$ 5,445,000</u>	<u>\$ 412,736</u>

The Series B Bonds bear interest at an adjustable rate, set initially at 3.05%, with interest payments due every 90 days. The interest rate is scheduled to reset on November 15, 2025 to 2.46%. Annual interest expense on the Series B Bonds is \$152,500 per year through 2025. The bonds may be redeemed without premium at any time before their maturity date, November 15, 2044. As of December 31, 2019 and 2018, \$5,000,000 was outstanding on the Series B Bonds. The entire principal outstanding on the Series B Bonds matures in 2044.

Subsequent to year-end, the Series A and Series B Bonds were reissued by the IDA to reflect a change in the interest rates on the bonds. The bond documents include a provision that allows the bank to adjust the interest rates, which occurred as a result of the federal tax law enacted at the end of 2017. As a result of the March 16, 2020 reissuance, the rate on the Series A bonds will change from 2.37% to 2.63% and the rate on the Series B bonds will change from 3.05% to 2.22%.

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

Deferred Amount On Refunding

As a result of the issuance of the Series 2014 Bonds, a deferred amount on refunding of \$290,138 was calculated related to the refunding of the Series 2005 Bonds. This amount was capitalized and reported as a deferred outflow of resources and is being amortized over 11 years, which was the remaining life of the new Series 2014 Bonds at issuance. The unamortized balance at December 31, 2019 and 2018 is \$158,257 and \$184,633, respectively.

2013 Note Payable

In 2013, the St. Louis Science Center financed the purchase of a new VOIP phone system through US Bank. The original amount of the note was \$261,019. The note bore interest at LIBOR plus 2% and matured in 2019. Principal and interest of \$4,437 was due each month. The VOIP phone system was pledged as collateral.

8. Note Payable - Lines-Of-Credit

Subdistrict

The St. Louis Science Center has a working capital line-of-credit agreement with US Bank, to allow borrowing up to \$5,000,000 from February 1 of any year through June 30 of such year and up to \$7,000,000 with respect to any other period.

On December 10, 2019, the St. Louis Science Center signed a renewal agreement with US Bank to extend the maturity date to December 19, 2020. The unpaid balance bears interest at an annual rate equal to 1.25% above the LIBOR rate.

The highest amount outstanding at certain times during 2019 was \$3,400,000 and during 2018 was \$3,500,000. The unpaid balance bore an interest rate of 3.01% at December 31, 2019 and 3.77% at December 31, 2018. The balance outstanding was \$1,900,000 and \$1,400,000 at December 31, 2019 and 2018, respectively.

Foundation

On December 1, 2018, the Foundation entered into a revolving line-of-credit agreement with US Bank to allow borrowing up to \$10,000,000 in increments of \$100,000. This agreement extends through December 1, 2021. The unpaid balance bears interest at an annual rate equal to 1.00% above the LIBOR rate. Pledges receivable have been pledged as collateral.

The balance outstanding at December 31, 2019 was \$2,653,008 and bore an interest rate of 2.76% at December 31, 2019. The Foundation did not have an outstanding balance at any point during 2018, and therefore, had no outstanding balance at December 31, 2018.

ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT

Notes To Financial Statements (*Continued*)

Financial Covenants

Under terms of the Series A, Series B and line-of-credit agreements, the St. Louis Science Center and Foundation are required to meet certain financial ratios, including a minimum fixed charge coverage ratio. The St. Louis Science Center and Foundation obtained a waiver and covenant modification related to the fixed charge coverage ratio for the quarter ended March 31, 2019 through the quarter ended March 31, 2020. Apart from this waiver, the St. Louis Science Center and Foundation were in compliance with all covenants as of and for the years ended December 31, 2019 and 2018.

Subsequent to year-end, the COVID-19 outbreak has led to the temporary closure of the St. Louis Science Center and is expected to have an adverse impact on business operations. The St. Louis Science Center will monitor closely the impacts of the virus outbreak on the financial performance and on compliance with financial covenants, and will work with lending institutions as needed to address the potential need for additional modifications.

9. Deferred Compensation Plans

The St. Louis Science Center offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The St. Louis Science Center also established a governmental retirement plan within the meaning of Internal Revenue Code Section 401(a), effective January 1, 2013, for the purpose of providing matching retirement benefits to employees. The plans, available to all St. Louis Science Center employees, permit them to defer a portion of their salary until future years. Participation in the plans is voluntary. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The Subdistrict contributed \$264,918 and \$246,001 to the 401(a) plan in 2019 and 2018, respectively, and made no contributions to the 457 plan in 2019 or 2018.

Because the St. Louis Science Center does not control the plan assets as defined by GASB Statement No. 84, the investments for the deferred compensation plans are not presented in the St. Louis Science Center's financial statements.

10. Pension Plan

Pension Plan description. The St. Louis Science Center Employees' Retirement Plan (the Plan) is a single-employer defined benefit pension plan administered by the St. Louis Science Center. The Plan provides retirement, disability, and death benefits to plan members and beneficiaries. The St. Louis Science Center has the discretion to establish and amend benefit provisions. The Plan does not issue a publicly available financial report that includes financial statements and the required supplementary information.

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

Benefits provided. All full-time St. Louis Science Center employees commencing service prior to December 31, 2012 were eligible to participate after attainment of age 21 and one year of service. As of January 1, 2013, the Plan was frozen to new employees, as well as the accrued benefit at December 31, 2012, and shall not increase after that date due to additional benefit service, increased compensation, changes in covered compensation, or any other reason.

Benefits are fully vested after five years of service. A St. Louis Science Center employee who retires at the age of 65 with five years of credited service is entitled to a normal retirement benefit of 1% of average compensation plus 0.65% of average compensation exceeding the employee's social security-covered compensation, multiplied by service up to 30 years for compensation earned through December 31, 2012. Early retirement benefits are available at the actuarial equivalent of the normal retirement benefit. At December 31, 2019 and 2018, membership in the Plan consisted of the following:

	<u>2019</u>	2018
Active employees	65	74
Retirees and beneficiaries currently receiving benefits	74	75
Terminated employees entitled to benefits but not yet receiving them	170	163
Total	<u>309</u>	312

Contributions of \$139,067 were accrued by St. Louis Science Center as of December 31, 2019 and 2018, and are included in accrued expenses. These contributions were accrued in accordance with actuarially determined contribution requirements.

Net Pension Liability

The St. Louis Science Center's net pension liability was measured as of January 1, 2019 and rolled forward to December 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of the same date:

Total pension liability	\$ 9,461,207
Plan fiduciary net position	<u>8,256,053</u>
Science Center's net pension liability	<u>\$ 1,205,154</u>
Plan fiduciary net position as a percentage of total pension liability	87.26%

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

The St. Louis Science Center's net pension liability was measured as of January 1, 2018 and rolled forward to December 31, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of the same date:

Total pension liability	\$ 9,496,289
Plan fiduciary net position	<u>7,433,250</u>
Science Center's net pension liability	<u><u>\$ 2,063,039</u></u>
Plan fiduciary net position as a percentage of total pension liability	78.28%

The total pension liability in the December 31, 2019 and 2018 actuarial rollforward, respectively, were determined using the following actuarial assumptions:

Valuation date	January 1, 2019	January 1, 2018
Actuarial cost method	Entry age normal as a level percentage of pay	Entry age normal as a level percentage of pay
Asset valuation method	Market value of assets	Market value of assets
Actuarial assumptions		
Investment rate of return	7.5%	7.5%
Projected salary increases	4.5%	4.5%
Mortality	SOA RP-2014 Total Dataset Mortality; Scale MP-2017 Fully Generational	SOA RP-2014 Total Dataset Mortality; Scale MP-2017 Fully Generational

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation at December 31, 2019 and 2018 are as follows:

Asset Class	December 31, 2019			
	Target Allocation	Actual Allocation	Expected Rate Of Return	Arithmetic Mean
Equity securities	66%	66%	9.0%	6.0%
Fixed income	29%	27%	5.0%	1.4%
Alternative investments	5%	1%	2.0%	0.1%
Cash	0%	6%	1.0%	0.0%
	100%	100%		7.5%

Asset Class	December 31, 2018			
	Target Allocation	Actual Allocation	Expected Rate Of Return	Arithmetic Mean
Equity securities	66%	62%	9.0%	6.0%
Fixed income	29%	26%	5.0%	1.4%
Alternative investments	5%	5%	2.0%	0.1%
Cash	0%	7%	1.0%	0.0%
	100%	100%		7.5%

Discount Rate

The discount rate used to measure the total pension liability at December 31, 2019 and 2018 was 7.50%. The projection of cash flows used to determine the discount rate assumed that Plan contributions will continue to follow the current funding policy. Based on those assumptions, the Plan's fiduciary net position was projected to be sufficient to make projected benefit payments, and pension plan assets are expected to be invested using a strategy to achieve that return.

Notes To Financial Statements (*Continued*)

Sensitivity Of The Net Pension Liability To Changes In The Discount Rate

The following presents the net pension liability of the St. Louis Science Center, calculated using the discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	December 31, 2019		
	1% Decrease	Current	1% Increase
Discount Rate	6.50%	7.50%	8.50%
Net Pension Liability	\$ 2,210,807	\$ 1,205,154	\$ 341,361

	December 31, 2018		
	1% Decrease	Current	1% Increase
Discount Rate	6.50%	7.50%	8.50%
Net Pension Liability	\$ 3,082,694	\$ 2,063,039	\$ 1,188,818

Rate Of Return

For the year ended December 31, 2019 and 2018, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 19.08 and (4.65) percent, respectively. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts annually invested.

Pension Expense And Deferred Outflows Of Resources And Deferred Inflows Of Resources Related To Pensions

For the years ended December 31, 2019 and 2018, the St. Louis Science Center recognized pension expense of \$167,514 and \$272,826, respectively, after all deferred inflows and outflows of resources were accounted for. At December 31, 2019 and 2018, the St. Louis Science Center reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

	2019		2018	
	<u>Deferred Outflows Of Resources</u>	<u>Deferred Inflows Of Resources</u>	<u>Deferred Outflows Of Resources</u>	<u>Deferred Inflows Of Resources</u>
Differences between expected and actual experience	\$ 13,174	\$ 31,664	\$ 144,905	\$ 58,567
Net difference between projected and actual earnings on pension plan investments	—	252,159	673,454	—
Science Center contributions subsequent to the measurement date	—	—	139,067	—
Other changes - assumption changes	—	25,706	—	30,748
Total	\$ 13,174	\$ 309,529	\$ 957,426	\$ 89,315

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions at December 31, 2019 will be recognized in pension expense as follows:

<u>Year</u>	<u>Deferred Outflows Of Resources</u>	<u>Deferred Inflows Of Resources</u>	<u>Total</u>
2020	\$ (13,174)	\$ 107,186	\$ 94,012
2021	—	66,728	66,728
2022	—	(29,882)	(29,882)
2023	—	165,497	165,497
	\$ (13,174)	\$ 309,529	\$ 296,355

Deferred outflows of resources of \$139,067 at December 31, 2018 were recognized as a reduction of the net pension liability in the year ended December 31, 2019.

Contributions Receivable And Payable

The St. Louis Science Center, through resolution, has a legal duty to pay all actuarially required contributions. Payments of outstanding contributions will be paid over a five-year period. Total contributions that remain unpaid as of December 31, 2019 and 2018 are \$278,134 and \$419,213, respectively.

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

11. Leases

The Foundation and Subdistrict are parties in a lease for the St. Louis Science Center facility. The term of the lease is for one year, and as of December 31, 2019 the Subdistrict has the option to renew the lease annually for up to 21 additional one-year terms. The lease calls for annual rentals of \$2,000,000, payable in equal monthly installments of \$166,667 each. During 2019 and 2018, the Subdistrict paid, and the Foundation received, rentals totaling \$2,000,000.

The Foundation and Subdistrict are parties in a lease for the property directly adjacent to the Science Center. The term of the lease is for one year, and as of December 31, 2019, the Subdistrict has the option to renew the lease annually for up to 28 additional one-year terms. The lease calls for annual rentals of \$350,000, payable in equal monthly installments of \$29,167 each. During 2019 and 2018, the Subdistrict paid, and the Foundation received, rentals totaling \$350,000.

The Foundation and Subdistrict are parties in a lease of the Planetarium and the area surrounding the St. Louis Science Center. The term of the lease is for one year, and as of December 31, 2019, the Subdistrict has the option to renew the lease annually for up to 2 additional one-year terms. The lease calls for annual rentals of \$1,920,000 payable in monthly installments of \$160,000 each. During 2019 and 2018, the Subdistrict paid, and the Foundation received, rentals totaling \$1,920,000.

Effective August 1, 2010, the Foundation and Subdistrict became parties in a lease for the property commonly known as 1100 Macklind Avenue. The term of the lease is for one year, and as of December 31, 2019, the Subdistrict has the option to renew the lease annually for up to 41 additional one-year terms. The lease calls for annual rentals of \$234,000 payable in monthly installments of \$19,500 each. During 2019 and 2018, the Subdistrict paid, and the Foundation received, rentals totaling \$234,000.

The Foundation's interest in the Subdistrict facility lease, the adjacent property lease, and the Planetarium lease are pledged to collateralize the Foundation's obligations to US Bank under the Series 2014 bonds (Note 7).

The Foundation and Subdistrict are also parties in two leases primarily for office and warehouse space under annual renewable lease contracts. Annual rentals under these contracts totaled \$323,077 in 2019 and \$319,252 in 2018, which the Subdistrict paid, and the Foundation received.

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

The Foundation has entered into a rental lease with a third party for office space that matures on May 31, 2023. At December 31, 2019, future minimum lease payments under this lease are as follows:

Year	Amount
2020	\$ 452,708
2021	454,166
2022	476,046
2023	202,142
	<u>\$ 1,585,062</u>

12. Management Agreement

Under the Foundation's Management Agreement with the Subdistrict dated July 1, 1990, the Subdistrict manages the St. Louis Science Center facility and revenue-producing activities, and the Foundation pays the Subdistrict a fee for its services. The annual fee in the amount of \$2,000,000 is intended to cover the operating costs associated with producing revenues for the Foundation.

13. Tax Abatements

The St. Louis Science Center Subdistrict recognizes tax revenue based on an allocation of property taxes levied and collected by the District. The District levies and collects property taxes on behalf of the Subdistricts based on the assessed valuation of property in St. Louis City (City) and St. Louis County (County). Both the City and County have entered into property tax abatement agreements with local businesses under various state statutes. Under these state statutes the City and County may grant property tax abatements for the purpose of attracting or retaining businesses within their jurisdictions. The St. Louis Science Center Subdistrict allocated revenues were reduced under these agreements entered into by the City and County. City property tax allocated revenues were reduced by approximately \$275,000 for 2018, for taxes assessed on January 1 and payable by December 31 of the same year. County property tax allocated revenues were reduced by approximately \$141,000 for 2018, for taxes assessed on January 1 and payable by December 31 of the same year. Information regarding the City and County property tax allocated revenue reduction for 2019 is unavailable.

**ST. LOUIS SCIENCE CENTER SUBDISTRICT OF THE
METROPOLITAN ZOOLOGICAL PARK AND MUSEUM DISTRICT**

Notes To Financial Statements (*Continued*)

14. Commitments And Contingencies

Capital Commitments

As of December 31, 2018, the St. Louis Science Center had entered into two contracts totaling \$519,105 for renovations to the Omnimax Theater to be completed in fiscal year 2019. The Omnimax Theater renovations were completed in 2019 and there were no contract commitments at December 31, 2019.

Federal Financial Assistance

Most grants and cost-reimbursable contracts specify the types of expenses for which the grant or contract funds may be used. To date, the St. Louis Science Center has not been notified of any significant unallowable costs relating to its grants or contracts. In the opinion of management, adjustments for unallowable costs, if any, resulting from such audits would not be significant.

Litigation

From time to time, the St. Louis Science Center is party to lawsuits arising in the normal course of operations. While the results of litigation cannot be predicted with certainty, management believes that there is no such litigation that will have a material adverse effect on the financial statements of the St. Louis Science Center as of December 31, 2019.

15. Subsequent Event

Subsequent to year-end, a new strain of the coronavirus (COVID-19) spread through China as well as other countries worldwide, including the United States. The impact of the virus varies from region to region and from day to day. The COVID-19 outbreak has led to the temporary closure of the St. Louis Science Center and is expected to have an adverse impact on business operations. The outbreak of COVID-19 continues to grow both in the U.S. and globally, and related government and private sector responsive actions are expected to adversely affect business operations. It is impossible to predict the effect and ultimate impact of the COVID-19 pandemic as the situation is rapidly evolving.
